

The AI finds all 15 racist videos and makes one false alarm

Qwen3.5-9B · 30 public videos (15 racist, 15 not) · images + speech + on-screen text

		What the AI decided	
What a human decided		Flagged	Not flagged
Racist (15)	Not racist (15)	15 Correctly flagged	0 Missed
		1 False alarm	14 Correctly ignored

Short public videos, up to 4 minutes long. The AI used images from each scene, the speech and the on-screen text. The video test uses racism because no open video dataset on sexual violence exists. With only 30 videos, each mistake moves the scores a lot.
